Tablo Table

Designed by Nicolai Wiig Hansen for Normann Copenhagen

Round and three-legged

Once again, Nicholai Wiig Hansen has created a design for Norman Copenhagen which unites function and aesthetics in a simple design. The refinement of the tabletop's sharpened edge compliments the lacquered legs beautifully and gives the table a pure and minimalistic feel.

The name, Tablo, refers to the English 'table' and the French 'tableau', the latter meaning a scenic, organised arrangement. With its simple expression, Tablo fits into most interior styles and is available in a large and a small version. Tablo is quick and easy to assemble without the use of screws.

Nicholai Wiig Hansen says: "For me, it is paramount that function, materials and aesthetics all come together. The design needs to both be useful and solve a basic need - without compromising the visual expression. Being easy to assemble is therefore part of Tablo's function."

Tablo comes in two sizes and works great by itself or when placed together with other Tablo tables.
