

UCHIWA

Design by Doshi Levien

HAY

Uchiwa

Uchiwa is a capacious armchair, taking its soft and open shape from the traditional Japanese hand fan. Generous and inviting, new and familiar at the same time, the armchair comes in two upholstered versions: in a softer quilted model for a more domestic environment and in moulded foam for a more demanding contract context. The base is available in natural or stained oak.

Uchiwa Design by Doshi Levien

Doshi Levien is a London based design studio founded in 2000 by Nipa Doshi (b. 1971) and Jonathan Levien (b. 1972).

They have established a strong reputation for creating design that is both technically advanced and imbued with cultural resonance and they have been internationally acclaimed for their work.

Together, they bring to bear a complimentary set of skills to the projects they work on. They have worked on projects for industry leading companies and institutions in the fields of furniture, fashion, homewares, technology and lighting.

For HAY, they have created the Uchiwa Lounge Chair, Dapper Lounge and Quilton Sofa.
