

TIP FLOOR LAMP – EU VERSION

JENS FAGER ON THE DESIGN "The Tip Floor Lamp is a simple and friendly design with a unique architectural silhouette. Throughout the design process, I spent a lot of attention on polishing every single detail and combining it with the lamp's inherent functionality. I wanted to reduce the lamp's design to the very essence of its purpose; creating a product that was intuitively understandable and functional in daily life. With its body in molded aluminum with a matte touch, the Tip Floor Lamp has a clean and precise look, highlighting its structural form."
